

ANNOUNCEMENT LONG BEACH WATER SUPPLY
Issued: October 24, 2018

Clearford apologizes for the inconvenience caused by the latest boiled water advisories. We know how inconvenient this is and want to eliminate the requirement for the advisories. The change in weather is resulting in more turbulence in the lake and the filtration system cannot eliminate all of the sediment coming into the Plant. We are working hard to find a solution that we can install immediately to temporarily fix the problem. We are also planning a permanent solution that will require rebuilding the water treatment system so that it is not affected by high turbulence and can provide reliable water pressure and quantity. As we create our plan and have more details we will share them with you. Our goal is to provide Long Beach residents with safe reliable water and we are dedicated to that goal.

Thank you,
