## DRINKING WATER QUALITY MANAGEMENT SYSTEM (DWQMS) POLICY

I, Kevin Loiselle, as President & CEO of CLEARFORD, am committed to providing the resources and support for a safe, consistent supply of high-quality drinking water to the facilities under CLEARFORD's operational control.

Our goal is to ensure that the Owner's drinking water meets, or exceeds, all relevant regulations and standards. To achieve the goal of providing consumers with high quality drinking water, CLEARFORD will work closely with the Owner to implement and maintain a Quality Management System (QMS) which encompasses the entire system from the source water to distribution system, including the treatment process. CLEARFORD will strive to continually improve the QMS through regular review, evaluation, and taking necessary action where required.

President & CEO  
[QMS Top Management]

Kevin Loiselle
